

## DESCRIPTION

**SP-CMS15W/30W** is a high-performance ceiling speaker designed for background music and paging applications in commercial environments such as offices, retail stores, hotels, and educational facilities. This model provides superior sound quality and reliable operation with a sleek, low-profile design for seamless integration into modern interior spaces. Its ABS material construction ensures durability and lightweight installation.

## FEATURES

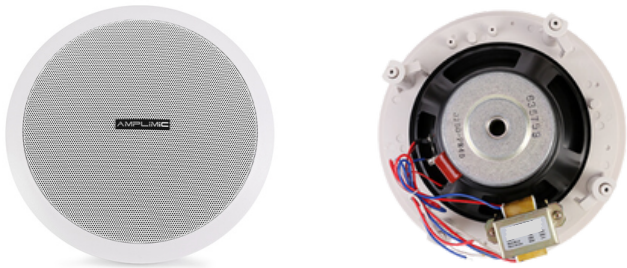

- **High-Quality Sound Performance:** Delivers clear, full-range audio suitable for both background music and paging systems.
- **Power Output Options:** Supports power ratings of 15W and 30W, ensuring flexibility for various audio applications and room sizes.
- **Wide Frequency Response:** Frequency ranges from 100Hz to 13kHz for well-balanced sound reproduction.
- **Durable Construction:** Made with ABS material, ensuring lightweight, impact resistance, and long-term durability.
- **Built-In Transformer:** Features a 70V/100V transformer for efficient long-distance audio signal transmission and low line losses.
- **Simple Installation:** Easy ceiling mounting with a secure spring clip design for seamless integration.
- **Versatile Applications:** Suitable for commercial environments such as offices, shopping malls, hotels, educational institutions, and public venues.
- **Aesthetic Design:** Compact, low-profile design with a white grille to blend harmoniously with various interior decors.

# SPECIFICATIONS

Rated Power Output	15W/30W
Power Taps	15W, 30W
Impedance	8Ω
Line Input	70V/100V
Frequency Response	50-20,000Hz
Sensitivity	92dB
Max SPL(1M)	107dB
Speaker Driver	8-inch full-range

## Front/Rear Panel

### Front Panel

- **SP-CMS15W/30W ABS Ceiling Speaker** features a sleek front panel with a durable ABS grille for enhanced sound clarity and protection. It includes a high-quality 6.5-inch woofer that delivers clear, balanced audio with a power range of 15W to 30W. The minimalist design ensures seamless integration into modern interiors, while its perforated grille allows optimal sound dispersion. Ideal for background music and paging systems in commercial or residential spaces.

### Rear Panel

- **SP-CMS15W/30W ABS Ceiling Speaker** features a rear panel for efficient installation and high-performance audio output. It includes a high-quality transformer for 70V/100V voltage input, enabling flexible power options for different audio setups. The rear panel also offers clearly labeled power taps to switch between 15W and 30W output settings easily. Durable connectors ensure stable signal transmission, while compact and sturdy ABS housing enhances installation convenience and long-term reliability.
