

## DESCRIPTION

**DVM-4V2DKB** is a powerful and versatile live video control switcher designed for professional live streaming, broadcasting, and video production applications. Featuring a robust set of input/output options and an intuitive control interface, the DVM-4V2DKB ensures seamless real-time switching, high-quality video processing, and advanced production capabilities.

## FEATURES

- **Multiple Input Sources:** It Supports HDMI input, allowing for seamless integration of cameras, media players, and other video sources.
- **4K Ultra HD Resolution:** Delivers crystal-clear image quality with support for resolutions up to 4K, ensuring professional-grade output.
- **Real-Time Effects and Transitions:** A comprehensive selection of transitions, overlays, and picture-in-picture (PIP) effects for dynamic and engaging productions.
- **User-Friendly Interface:** Intuitive physical controls combined with an advanced software interface for easy operation and customization.
- **Multi-View Monitoring:** Provides a real-time preview of all video sources on a single screen for efficient monitoring and switching.
- **Audio Mixing Capabilities:** Integrated audio control with multiple input channels, enabling precise mixing and synchronization with video sources.
- **Streaming and Recording:** Supports direct streaming to popular platforms such as YouTube, Facebook Live, and Twitch, with built-in recording capabilities for post-production use.

## SPECIFICATIONS

Video Input Interface	4 channels HDMI
Video Output Interface	2 Channels HDMI outputs simultaneously, supports PGM Video Output Interface 1 Channel USB output, USB supports audio and video output 1Channel IP output, supports RTMP, RTMPS Support UVC and IP simultaneous output
Audio Input Interface	4 sets of HDMI audio inputs 2 channels 3.5mm MIC IN input
Audio output Interface	1 set of 3.5mm headphone monitoring jack
RJ45 Ethernet	RJ45x1, Ethernet supports 10/100/1000 BaseT, which can be used for live streaming, background settings, and software updates
Computer Interface	1xUSB TYPE C for UVC 1xUSB TYPE A; external USB storage (FAT32, NTFS, exFAT)
Video Input Format	1080p 60/59.94/50/30/29.97/25/24/23.98 1080i50/1080i60
Video Output Format	1080p 60/50/30/25/24 1080i50/1080i60
HDMI Color Space	RGB/YUV
USB Acquisition Output	Max: 1080P60, support USB audio output
File Recording Format	MP4
