

DESCRIPTION

The **SP-RS20W** is a high-performance landscape and garden speaker equipped with a built-in **70V/100V** transformer. Its transformer-based system minimizes signal loss over long cable runs and supports the convenient parallel connection of multiple speakers. Designed with a durable, weather-resistant resin enclosure featuring a natural rock-like appearance, it offers excellent protection against harsh outdoor conditions and physical damage. Easy to install and highly reliable, the **SP-RS20W** is an ideal solution for outdoor background music and public address systems in locations such as shopping malls, railway stations, factories, parking lots, gardens, parks, and other commercial or industrial environments.

FEATURES

- Natural rock-inspired design that blends seamlessly into outdoor landscapes, making it ideal for schools, parks, gardens, plazas, and grass-covered areas.
- Constructed from premium-grade resin, featuring a durable yet lightweight 5 kg enclosure with an elegant, weather-resistant finish.
- Supports 70V/100V line systems with a rated power output of 20W, 87 ± 2 dB sensitivity, and a maximum sound pressure level of 100 ± 2 dB for clear and consistent audio performance.
- Wide frequency response of 100 Hz–15 kHz ensures balanced sound reproduction for both background music and public announcements.
- Equipped with a waterproof high-performance driver, delivering clear, rich, and natural sound while ensuring long-lasting reliability in outdoor environments.

SPECIFICATIONS

Full Range	6.5"×1
Rated Power	20W
Max. Power	40W
Rated Voltage 70V	10W-20W
Rated Voltage 100V	20W
Max. SPL (1M)	100±2dB
Sensitivity (1M, 1W)	87±2dB
Frequency Response	100Hz-15kHz
Dimension (L×W×H)	379×250×321mm
Weight	5.2Kg
