

DESCRIPTION

Designed for meeting rooms, BYOD collaboration, cable cubbies, and Pro-AV systems, this active USB-C cable combines high-speed data, video, and power in one connection. It supports data transfer up to 10 Gbps, DisplayPort Alt Mode video up to 4K/60 Hz, and USB Power Delivery up to 60 W. Reinforced connectors and multi-layer shielding provide dependable performance for frequent commercial use and longer-distance installations.
